## My To Do List

Enter Title Here	Enter Description Here	Add Task

No Task Available

This is the user interface of my project, now I am going to add task in it.

Enter Title Here	Enter Description Here	Add Task

Wake up and brush up your teeth	brush gently with Maxfresh for clean and white teeths	Delete
Drink 2 glass of hot water with 1 spoon of honey & do exercise.	honey with luke warm water increases metabolism of the body which is very good for health.	Delete
Fresh up & have shower , dress up be ready for college or office and have breakfast	my daily routine goes with this thing only , currently i am a college student , learing and grasping new technologies like reactjs and react native....	Delete
now do regular classes & training	according to the time table , use to go to college and grash knowledge of both academics and development.	Delete
come from the college and eat maggi	maggi is imp in hostel life	Delete

Waiting for api.momentumdash.com

Now u can see , I have added 5 tasks in my to do list, each task have a delete button so we can delete any task whenever we want….
